FST21 CANADA WELCOMES TWO NEW STAFF MEMBERS

Parlin, New Jersey . . . January, 2014

FST21 Canada is pleased to welcome two new staff members to its team. Joining FST21 as Sales Support Manager is Nir Rikovitch, who will be responsible for leading and managing all activities in support of FST21 sales in Canada. Nir is a graduate of Technion and McGill University and brings a wealth of technological and managerial experience to his new position. Nancy Laxson joins FST21 as Regional Sales Manager for Eastern Canada. Nancy has worked within the security space for the past 12 years and has and has served as a board member of CANASA.

"It's my pleasure to welcome Nancy and Nir to the team," says Rony Podolsky, Chief Operating Officer, FST21 Canada. "The company is growing rapidly, and their experience and expertise will be a great asset to our Canadian sales and customer service efforts. Nancy and Nir will help our customers and prospects migrate to the new access control paradigm of security with convenience. "

FST21's award-winning access software solution - SafeRise® - utilizes FST21's In Motion Identification™ capabilities to manage and control building entry points, common areas, elevators and parking areas. SafeRise recognizes people simply by the way they look and move, eliminating the need, and inherent security risks associated with solutions such as swipe cards and FOBs. SafeRise represents a best-in-breed fusion of cutting-edge, value-adding technologies,

including 2nd generation Biometrics, Video, Behavior Analysis, Facial Recognition, and License Plate Recognition.

About FST21:

FST21's SafeRise® solution provides top security and convenience by fusion of real time biometric information for fast and automatic access management. *In Motion Identification*™ is the core of this **Identity Management and Control s**olution and it is changing security as we know it. It uses biometric and analytic technologies that include facial recognition, behavior analysis, voice recognition, LPR and more to deliver superior security with unprecedented convenience. Authorized entry is granted at any access point by simply enrolling into the system and then **you are the key!** Just walk naturally and let SafeRise® do the rest. From here on….no more keys, cards, codes…. **FST21's In Motion Identification** has changed the lives of tenants in residential and commercial buildings around the world. And now FST21's ASIS Accolades Award-winning Digital Doorman is bringing it to every door. Granting visitors or guests is no problem - SafeRise® offers them one of the most advanced, automated and simple solutions. Simply send visitors your invite electronically and SafeRise will do the rest.

The FST21 R&D team of professionals has substantial technology experience acquired in an array of inter-disciplinary development roles with leading multinational & high-tech companies and during their military service. FST21 has the exciting challenge of forming the future of intelligent building safety and security solutions based on a fusion of 2nd generation video/voice biometrics & analytics. FST21 was founded in 2007 by Major General Aharon Zeevi Farkash, a world expert in security, and has an experienced management team all with successful backgrounds. FST21 is a privately-held company headquartered in Rishon Lezion, Israel, with offices in the United States, Canada, Brazil, Hong Kong, Vietnam and Russia.
