FST BIOMETRICS HONORED WITH ITS SECOND SIA NPS AWARD AT ISC WEST 2014

NEW YORK, NY . . . April 14, 2014 - [FST](#) Biometrics, the leading biometric access control solutions provider, was recognized at ISC West 2014 with a Security Industry Association (SIA) New Product Showcase (NPS) Award. This premier awards program was established in 1979 to recognize innovative products, services and solutions in electronic physical security. Technologies showcased through this program are used in the protection of life and property in residential, commercial and institutional settings.

Each year at ISC West, the NPS program recognizes winners in several product and service categories and presents the prestigious Judges Choice and Best New Product awards. FST Biometrics' newest offering IMIS Solo (SafeI) - earned the NPS Award for **Best in Access Control Hardware & Software**. This is FST's second SIA NPS win in the past three years, which demonstrates how much the market appreciates the innovative solutions of FST Biometrics.

“We at FST Biometrics are deeply honored to have been recognized by SIA again with this prestigious New Product Showcase Award,” says Major-General Aharon Zeevi Farkash, Founder and CEO, FST Biometrics. “We are committed to delivering ultimate security and seamless access control solutions at the speed of life and very much appreciate this recognition of our efforts by the Security Industry Association.”

FST Biometrics’ products use a fusion of facial recognition and behavior analytics technologies to provide a seamless security experience for buildings, corporations, and secured facilities. The technology has the potential to make card keys and building sign-ins obsolete, while offering ultimate security, as well as a seamless access experience across the board.

“Each year, the companies competing in SIA’s New Product Showcase at ISC West present the leading-edge security solutions that are shaping the industry,” says SIA CEO Don Erickson. “These new technologies and solutions are the drivers that are moving the security industry forward, and I congratulate FST Biometrics on their win at this year’s NPS.”
