

FOR IMMEDIATE RELEASE

FST Biometrics Receives Lenel Factory Certification Under Lenel's OpenAccess Alliance Program

FST Biometrics' In Motion Identification™ (IMID) software interfaces with the Lenel OnGuard® access control security system

New York, July 17, 2014 — FST Biometrics has received factory certification from Lenel Systems International and joined the Lenel OpenAccess Alliance Program (OAAP). FST Biometrics' In Motion Identification™ (IMID) software interfaces with the OnGuard® access control system to provide approved users with seamless access at the speed of life.

FST Biometrics has completed required Lenel factory testing to validate the functionality of its interface with the OnGuard system. "FST's biometric access solution combines facial recognition and behavioral analytics and is able to identify authorized individuals in motion without the need to stop or slow down," said Gidon Lissai, director of strategic alliances, Lenel. "We look forward to FST Biometrics' continued involvement in the Lenel OpenAccess Alliance Program."

"FST Biometrics is very pleased to have received Lenel factory certification," stated Shahar Belkin, FST chief technology officer. "The ability to integrate our In Motion Identification™ (IMID) technology into the OnGuard access control system will expand our reach and make our solutions seamless to integrate and available to more end users who seek seamless access experience along with ultimate security."

ABOUT FST BIOMETRICS:

FST Biometrics is a leading biometric access control solutions provider. FST Biometrics' IMID™ product line provides top security and convenience by fusion of real time information for fast and automatic access control. It's hassle-free and allows authorized users quick and convenient access. The IMID™ technology implements a fusion of biometric and analytic technologies that include facial recognition, behavior analysis and voice recognition.
